Glister[®]
THE SOUL OF INTERIOR

THE FUTURE
Craft Beyond Measure

About Us

Glister, established in 2006 by Bhavin Patel is a distinguished name in the hardware industry, recognized for its high-quality and aesthetically pleasing products. With a focus on innovation and superior craftsmanship, Glister offers a comprehensive range of hardware solutions, including mortise handles, cabinet handles, main door handles, drawer knobs, and aldrip handles. These products are meticulously crafted from premium materials such as SS 304, SS 202, zinc alloy, and aluminum. Our commitment to excellence and customer satisfaction has made us a preferred choice among homeowners, architects, and interior designers.

Vision

Our vision is to be the global leader in the hardware industry, recognized for our innovative designs, exceptional quality, and unmatched customer service. We aspire to set new industry benchmarks by constantly evolving and adapting to our customers' needs while maintaining the highest standards of craftsmanship and integrity.

Mission

Quality Products

To provide our customers with high-quality, durable, and stylish hardware solutions that enhance both functionality and aesthetics.

Innovation

To foster a culture of innovation, ensuring that our products remain at the forefront of design and technology.

Ethical Practices

To uphold ethical business practices, ensuring transparency, honesty, and respect in all our interactions.

Production Process

Glistar employs a meticulous and comprehensive production process to ensure the highest quality of our products. The process includes

Casting

Using advanced casting techniques, we create the basic shape of our products from premium materials such as SS 304, SS 202, zinc alloy, and aluminum.

Turning

Precision turning machines shape and refine the cast pieces to achieve the desired dimensions and surface finish.

Buffing

The products undergo a thorough buffing process to ensure a smooth and polished surface, enhancing their aesthetic appeal.

Electroplating / PVD

We utilize electroplating and Physical Vapor Deposition (PVD) techniques to apply a durable and corrosion-resistant coating, ensuring long-lasting performance and a premium finish.

Quality Check

Each product undergoes rigorous quality checks at various stages of production to ensure they meet our stringent standards of excellence.

Packing

Our products are carefully packed using high-quality materials to prevent any damage during transportation.

Dispatch

We ensure timely dispatch and delivery of our products to customers worldwide, maintaining our commitment to excellence in service.
